

**Non-woven SMS fabric
55 gsm
Waterproof seams with
thermo-adhesive tape**

>> Types of use (*)

These coveralls are designed to protect against hazardous substances and contamination by products or people. They are typically used, depending on the degree of toxicity and the environment, to protect against light spray, liquid aerosols, or low pressure/low volume splashes, airborne solid particulates. Exposure to certain chemicals or high concentrations, may require higher barrier properties of the fabric, or in the construction of the suit. Such conditions can be protected by garments made to the standards of Types 1 to 4 or possibly by a more protective material. Spraying and painting, pharmaceutical industry, agriculture, electronics, renovation works, maintenance, asbestos removal...

>> Technical features

- ✓ **Model :** - Chemical protective coverall.
 - 3 panels elasticated hood.
 - Front zip fastening under large flap with self adhesive tape closure.
 - Elasticated waist, wrist and ankle.
 - Waterproof seams with thermo-adhesive tape.
- ✓ **Material :** Non-woven SMS fabric.
- ✓ **Weight of fabric:** 55 gsm.
- ✓ **Color:** white colour non-woven fabric, blue colour thermo-adhesive tape.
- ✓ **Sizes :** L, XL, 2XL, 3XL.
- ✓ **Packing :** - Carton of 50 units.
 - each coverall under individual polybag.
